The mission of PFS a.s. is to meet the expectations of customers and the needs of the company's owners, which means expanding the range of production, introducing its modernization and automation in order to achieve the highest possible productivity and quality, creating an environment for the growth and prosperity of the company and thus ensuring competitiveness and profitability.

Therefore, we are guided by the following:

- To compete in the market in such a way as to maintain the growth and prosperity of the company.
- By educating employees, taking care of occupational safety and fulfilling the social program, to increase the awareness and satisfaction of employees.
- Customer satisfaction with our products and the acquisition of new production programs is a measure of the quality of our work.
- Cooperation and transfer of responsibility for the delivery of quality products from our suppliers is a mirror of correct business relations, mutual respect and trust.
- To actively engage in environmental protection and support the development of the community in the region.
- To create conditions for continuous improvement of processes and quality of work in all areas of the company.

The responsibility for enforcing this quality policy lies with the company's management, where each employee is responsible for the quality and continuous improvement of their work.

This quality policy has been incorporated into the main quality objectives.
